Hi Readers!

To end the school year and practice some skills we gained in English, we have produced our first Summer magazine.

For this issue, students have chosen what they would like to contribute to the magazine. They have planned, noted their ideas, typed and edited them on the computer.

We all worked together to design, edit and proofread and we hope you enjoy it as much as we did! Good job! Well done to all!

Enjoy the Summer!

Agony Letters

If you have a problem, something is worrying you or you need some advice. Write to Dr Y.

Dear Dr Y:

My mum is very upset because I am going to fail 4 subjects in June. And she told me: "You won't go to any parties, you will stay in your house and study every day. But I want to meet my friends and go to parties.

What can I do?
Álvaro

Dear Álvaro:

I understand this difficult situation. You can speak to your mother and show her that you can do both, study and go out. Maybe come to an agreement, you study in the mornings and go out in the afternoons.

Dr Y

Dear Dr Y:

Tomorrow I have my dad's birthday and the end of school party (where many people are going, including my crush!). If I go to the end of school party, my dad will get angry. But if I go to my dad's birthday, I can't see my crush.

I need help! What can I do?
Iker

Dear Iker:

I have the solution to your problems! First you can go to dinner for your dad's birthday and after you can go to the end of school party.

So that way you can spend time with both!

Dr Y

Dear Dr Y:

I have a problem, this weekend there is a big party, where many people are going but... my parents won't let me go. I need to convince them, but there is no way. What can I do?

Antón

Dear Antón:

I know how you feel, you must show them how good you are at school and get good marks then help them with the house work, and in this way, they will definitely give in.

WE LOVE ANIMALS

ANIMAL ABUSE

Why do people abuse animals?

Some people think they may be helping their animals when they abuse them. Others abuse animals to impress their friends.

Why mustn't we do that?

Life is a right. If you kill or abuse, it is a crime.

Personal Opinion

We think animals are more important than people because most of our food and clothes come from animals and we have to treat them well.

There are heartless people who kill animals for fun. We have to avoid those kinds of people as they cannot be reasoned with.

Greatest BLOCKBUSTER FILMS REVIEW

Written by Antía Tejo

The film sector is increasing with the many ways it can be seen, like apps on the mobile phone, TV, the cinema...

In the history of film there are lots of genres which with the passing of time have become the favourites. They are: Science Fiction and Romance. We can't forget Horror, Action and Historical.

Some of the best blockbusters films of all time are:

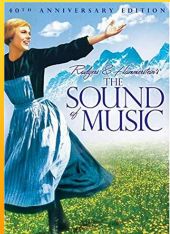

GONE WITH THE WIND 1939

This is a romantic, historical film set in the times of the Civil War and it tells us about the romantic relationship between two people and the way they survive the war.

THE SOUND OF MUSIC 1965

This is a musical from 1965 whose protagonist is a novice nun who starts working as a governess for seven children.

THE EXORCIST 1973

The famous Science Fiction saga describes the experiences of Skywalker's family who share the peculiarity of being sensitive to 'The Force'.

PULP FICTION 1995

This violent and redemption story interlaces the life of a boxer, two hit men, the wife of a gangster and two bandits.

Students are pulling their hair out!

On the last days of school, students in secondary schools are stressed because they have a lot of exams. I think some of the teachers think "My students only have my subject to study" and they then submit the students to a lot of exams. They are crazy!

I give my readers some tips to pass and have **everything very organised**.

Tip 1: Make some **notes** to study in your house.

Tip 2: Have **everything organised** in colours or folders.

Tip 3: **Pay attention** in class.

Tip 4: **Study everyday** and not on the last day before the exam.

I think these 4 tips will give you more inspiration to study and remember:

YOU WILL PASS

TIPS AND TRICKS for TOM CLANCY'S RAINBOW SIX SIEGE

Gamer Dictionary

gg = good game

bg = bad game

lmao = laugh my ass off

rush = when you go to the objective very fast at the beginning of the round.

roamer = defender that is outside the objective to make the opponent lose time.

tachanka = god

Twitch's drone

This drone can't jump but it goes faster and can shoot an electro shock-wave. It's useful when you want to open a Mira's mirror, another object (like a camera or C4...) and to harm the opponent.

Normal drone

This drone is used by all attacking characters except Twitch and Lion. It can jump, but it hasn't a defence mechanism. It's used to locate the objective, know where your enemies are and detect them to know what character they are. It's useful when you want to enter a room.

Echo's drone

This drone is used by Echo (defender character). It gives out a soundwave that stuns you. This is useful when there are a few seconds to end the round in bombs game mode because it avoids planting the SEDAX (this is to defuse a bomb).

You can use any of these drones whenever you want and you have two with each character, except if the enemy destroys them. If this happens, you can use your teammate's drone's camera but you can't move or take it. If not, good luck and I hope the enemies are noobs.

GASOLINE VS DIESEL

Written by Noé Calvo and Mateo Goris

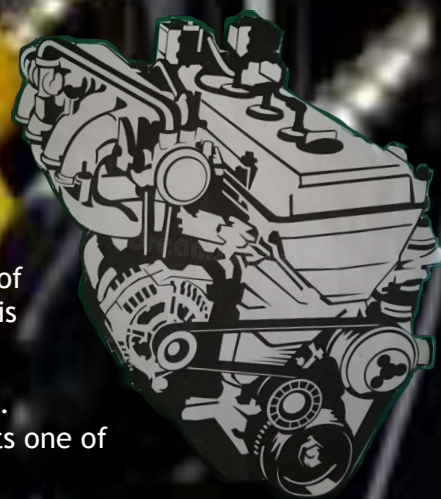

To help stop global warming, what is better to use?
gasoline or diesel?

The difference between diesel engines and gasoline engines:

Gasoline: fuel burns thanks to the spark plug. Gasoline engines have less pieces in comparison to diesel. They aren't very efficient and consume more using the same power. Gasoline is very quiet.

Diesel: fuel burns thanks to the compression. Diesel engines have a lot of pieces. They are efficient and consume less. They are noisy, but diesel is cheaper than gasoline.

Toyota's new engine runs as quiet as a gasoline engine and pollutes less. Thanks to direct raises fuel efficiency. Toyota has more than 400 patents one of the best patents was the innovative catalytic converter.

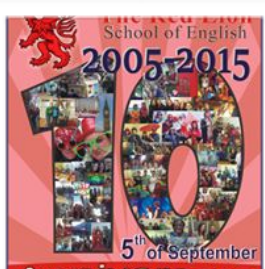

- Trips to London

Every year, in this academy, we had a trip to London. This trip lasted three days, from Friday to Monday.

If you're a child, under fourteen years old, you go with your parents. If you're a teenager, congratulations! You won't need your parents. And if you're older than eighteen years old, you will go with the adults group.

In London, we go as tourists. We visit museums, monuments like Big Ben, and we visit different attractions like the London Eye, Tower Bridge and Madame Tussauds.

The first day we go to Camden Market, we taste a typical dish.

- Ten years ago... Party

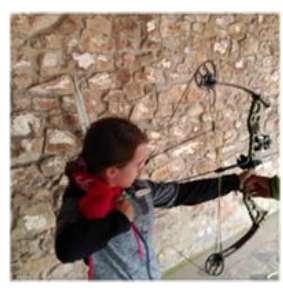

This academy opened in 2005 in A Estrada, so in 2015 we celebrated our 10th anniversary. We celebrated having a party in Alameda (A Estrada) with everyone. In the afternoon, we had activities for children like a bouncy castle. We made a telephone box in real size and a typical London bus photo booth. For the adults we organised a traditional English dinner.

OVER THE YEARS

- Summer camp

Every summer we organised a camp with young students. We learnt archery, padel, had trips to A Carixa and crafts with a topic. The first year it was pirates and the last year it was about Hawaii.

Fabulous Fables

The Monkey and the Snake

This is the story about a monkey and a snake! Monkey wanted to dance all his life; his friend told him that if he went to a competition, he would win!

So, Monkey saw a dance programme and decided to go! When he arrived at the place, in a different country, he was very nervous! There, he met a little snake from the same country... They spoke a lot, and Monkey told her that he had never been either on a programme or abroad. But, when the programme started each one would go their own way.

For monkey's dance, people laughed and said words that he didn't understand, because they spoke a different language, and he thought that these words weren't good! This was the reason why he deceptively left without knowing the results.

One day, Monkey met Snake and she told him that he had achieved a really high mark in the competition. Everyone in the audience enjoyed his show and said that he had been the best!

Sometimes, without trying, without knowing, or thinking the worst makes us miss great moments and better opportunities.

My suggestion is: For better or for worse, keep trying...and if you can, you should learn other languages.

Paranormal Stories

Written by Iris Pérez

• Information

-There are lots of cases of paranormal activity all around Europe, but especially in Great Britain and Ireland, where people usually say there are more ghosts than in the rest of the world. We'll see some of these cases, which are closer than we expect.

• Antía

-She went to the bathroom and had a shower. When she left the shower, she was drying her hair. The lights turned off and at the same time she saw a reflection of a person that wasn't her.

• Cats with Wings

-In 1975 a newspaper published a photo of this winged cat, where the wings on it are clear. But this isn't a single case. In Britain there were similar animals. The answer to this could be a skin disorder that made it be abnormally elastic.

• Juli

-She believes in ghosts. When she was a child, she and her parents would come home late and find the TV and the lights turned on, when they were sure they had turned them off when they left. As a child, Juli was excited with the fact that they had ghosts in their house, but her parents weren't. She asked them to investigate about it and they did. They found out that before they moved in, there was a priest and two nuns living there who had died in a tragic accident. They thought these must have been the ghosts and nothing else happened next.

• Virgin visions

In 1917, three children experienced a vision of a lady above a tree. The lady told them that she was from heaven and she appeared to them again every month for 5 months. Adults started to accompany them, but every time the children saw her, the adults just saw a small cloud above the three. Some time later, the children were arrested. Then they received another vision of that lady, who told them they could see her again on the 13th of October. About 70,000 people were there that day, but only the three children saw her. She told them she was Our Lady of the Rosary. The sun started to rotate in front of all the people. Were the children telling the truth?

• A Green Kitten

- In 1995 a green kitten was discovered in Dybrad. The woman who discovered it tried to wash the green parts off the fur, but she couldn't. Vets said it could be a mutant gene, or maybe the kitten or its mother (while she was pregnant) drank or came into contact with copper-contaminated water. What do you think about it?

NATURAL TREASURES

TOXA FALLS:

A Fascinating place.

In Silleda, there is a natural paradise, a site in the countryside of Pazos: Toxa Falls. It is the highest point in Galicia, with a height of 30 metres, integrated in a protected space known as Red Natura. Very visited place, near to the Carboeiro Monastery, where you can see typical Galician flora and fauna.

The peregrine falcon, a threatened species, nests in the cliffs, that can be admired from the spectacular viewpoint. If you like to go out for a walk, there is a nice hiking route that connects Toxa with Carboeiro.

The Toxa Falls is an important place to admire and take care of because green areas and natural spots are the lungs of both the countrysides and cities.

Shhh!
Visit this wonderful place...but don't tell a lot of people!

'O Pozo do Salto' is the name by which the locals know the recently discovered waterfall 'Fervenza de Férveda', a place that perfectly shows what Galicia is: Nature, Water and Tranquility. Nowadays, a small path goes up from Escuadro to the side of the river, so access is easier and more people can enjoy this place.

However, what few know, are the legends and stories that surround this place. When I was a child, I enjoyed going with friends and cousins, taking snacks to this place where nobody went. Basically, because it was unknown outside the area and access was terrible, we had to go there and back across the river* which was not a problem in summer. Once there, we told one another the stories that our elders transmitted to us.

*Small reflection about nature, the worst form of pollution is overcrowding, If you go to a natural place you don't drive anywhere, walk a bit and

IN GALICIA

'O Pozo do Salto' Legends

There is a 'grade' (agricultural implement) made of gold. There would always be one, encouraged by the heat of summer, who would try to find it by taking a bath there, but it has never been found.

At certain times of the year, in the surrounding area, there is a chicken who lays golden eggs... another legend yet to be discovered.

Behind the waterfall, there is a small mountain where if you reach the top, you can still see the remains of an ancient castle. Legend tells that from there you could see the entrance to a tunnel reaching close to the fall, hence a secret method of escape.

Parts of the walls of this same castle were taken to Santiago de Compostela to help construct the marvellous Cathedral.

Many more legends exist based on the colonisation of Muslims in the area.
